

05/15/2020

Dear Residents, Families, and Friends,

As the country continues to progress through the coronavirus (COVID-19) pandemic, we are continuing to adapt to provide a comfortable environment while attempting to limit the spread of the virus.

As of 5/15/2020, I am pleased to report that there are no additional Paramount Senior Living communities with confirmed or presumptive positive resident cases of COVID-19. Our senior living campuses in Westerville, Ohio and Fayetteville, Pennsylvania remain the only locations with COVID and I am pleased to report that the spread has been minimized due to our containment efforts.

We are continuing with our “Merry Month of May” celebration to honor our hardworking employees, with this week specifically recognizing our housekeeping staff. We continue to have “appreciation stations” stocked with snacks and beverages to keep all of our employees motivated during this difficult time.

As testing capacity continues to increase across the United States, we are beginning to see various states that we operate in mandate and provide COVID testing for our residents and/or staff. If this applies to the state where you or your loved one resides, you will receive a separate communication outlining our procedure to carry out this initiative once we receive a directive from local and/or state health officials.

We are working on a plan to slowly ease back into a sense of normalcy within our Paramount Senior Living communities. With that in mind, we are hoping to allow residents to come out of their rooms more frequently in the coming weeks.

We understand that most states are beginning to loosen restrictions, but visitation of families and non-medically necessary personnel to senior living residences still remains restricted.

We appreciate your cooperation and communication as all of us continue to battle COVID-19. If you have further questions, please reach out to your Executive Director.

-Paramount Senior Living
